DETAILED ACTION

This office action is in response to the election filed April 3, 2008. Claims 1-12 are pending (claims 9-12 being withdrawn from consideration).

Election/Restrictions

1. Applicant's election **without** traverse of Group I, claims 1-8 in the reply filed on April 3, 2008 is acknowledged. Claims 9-12 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected group (s), there being no allowable generic or linking claim.
2. This application is in condition for allowance except for the presence of claims 9-12 directed groups non-elected *without* traverse. Accordingly, claims 9-12 have been cancelled in the accompanying Examiner Amendment (see attached below).

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 9-12 (Canceled).

Information Disclosure Statement

4. The prior art documents submitted by Applicant in the Information Disclosure Statements filed on August 16, 2006, have been considered and made of record (note attached copy of forms PTO-1449).

Allowable Subject Matter

5. Claims 1-8 are allowed. The following is an examiner's statement of reasons for allowance: the closest prior art of record (Gipson et al. U.S.P. No. 4,732,446) does not teach or reasonably suggest, *in combination*, each of the claim limitations of sole independent claim 1. In particular, Gipson et al. '446 does not teach or reasonably suggest the express limitations such as "penetration electrodes, each *penetrating through from a base member surface* on which the photonic device is mounted to a base member surface at the opposite side", or "wherein the inclination angle of the reflecting surface *being adjusted* to an angle". There is no teaching or reasonable suggestion from Gipson et al. '466 or the other prior art to teach each and every claim limitation from sole independent claim 1, including the penetration electrode limitation (through the base member) and the inclination angle of the reflecting surface to be adjusted to match the optical waveguide(s) and photonic devices. Claims 2-8 are dependent upon claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Inventorship

6. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: PTO-892 form references A and B.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to DANIEL PETKOVSEK whose telephone number is (571)272-4174. The examiner can normally be reached on M-F 8:30-5PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rodney Bovernick can be reached on (571) 272-2344. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
